MEMORANDUM

JANUARY 22, 2014

TO: William Lutz – Business Administrator

FROM: Mark Guglielmi, C.P.W.M. – Superintendent of Public Works

SUBJECT: RECYCLING TONNAGE GRANT

Be advised the Municipal CRP (Certified Recycling Professional), Sharon Flaim, prepares a recycling tonnage report to the State in order to receive grants from the State. This report provides tonnage totals of recyclable materials from all businesses in the City of Vineland.

This grant money is used to buy recycling equipment, recycling receptacles, and subsidizes recycling employee salaries. It is very important that all recycling materials be reported the CRP in order to receive grant money from the State. The more tonnage reported to the State the more money is received from the available monies in the State Recycling Grant pool.

Attached is a list of recyclable materials which have their tonnage totals reported to the State. This is a State issued form that is sent to all Vineland businesses.

A resolution must be passed by each municipality showing its commitment to the State that they are dedicated to the act of recycling and committed to keeping and obtaining accurate records of all recyclable materials.
