

CITY OF VINELAND
DEPARTMENTAL REQUEST FOR PUBLIC BIDDING

1. NATURE OF REQUEST: Open Ended Solid and Liquid Waste Disposal
2. ENGINEER'S ESTIMATE: \$ 100,000
(If Engineer's Estimate has been prepared by anyone other than the person signing this form, please attach a copy of said Engineer's Estimate.)
3. AMOUNT BUDGETED FOR THIS REQUESTED ITEM: \$ 100,000
4. BUDGETED ITEM: YES NO
(If no, is it an ordinance authorized material, service or supply?)
YES NO ORDINANCE NO.: _____

(B) Please identify the page number and line item appropriation sub-account:

Budget Page No. _____ Account No. 002-0-54-90-9001-2-7023311, E502

5. Check here if:
Federal Funds State Funds
UEZ Funds Davis Bacon Requirements
(If any of the above are checked, the project must be monitored by the department for compliance with prevailing wage rate policy and procedures.)

6. Date to be Advertised: April 22, 2014
7. Date to be Received: May 27, 2014
8. Date to be Awarded: June 24, 2014
9. Special Conditions or Instructions: _____

10. The following must be attached:

- Bidders Mailing List
- Plans (if applicable)
- Specifications

11. Specifications Prepared by: Joseph L. Colla, Principal engineer, ext. 4353
(NAME, TITLE AND EXTENSION NUMBER)

12. Approved by: [Signature]
(DIRECTOR, DEPARTMENT HEAD, SUPERVISOR)

OLD PLANT COAL TOWER STABILIZATION & STACK DEMOLITION

VMEU H.M. DOWN STATION

PROJECT SUMMARY

The tower which was built in 1936 has deteriorated over the years due to its age and the effects of the weather. It needs to be stabilized in order avoid a catastrophic failure and to protect plant personnel and the critical plant structures surrounding the tower from a possible failure.

This project involves services by an outside contractor to inspect, partially demolish, reinforce remaining masonry and install new roof for stabilizing the Old Plant Coal Tower in accordance with the attached specifications and plans.

The project also covers the removal of the two (2) Old Plant stacks. This is expected to result in lower overall project cost due to more optimal use of a crane needed for each phase as well as recovery of the scrap steel value of the stacks. The removal of the stacks will also help provide easier crane access to the tower.

The plans were prepared by an independent professional structural engineer.
