We hereby agree to make the change(s) specified below.

Task 1: Cleaning and removal of Frac Tank

a.

As per the contract, with the Frac Tank Company, it is necessary for the tank to be properly clean prior to returning. It has been noted that the Frac tank has a substantial amount of soil, on the base of the tank, which was generated during the installation of the Monitoring well located in the cemetery (mud rotary drill rig). This soil has to be hand shoveled out of the Frac tank and properly disposed. Additionally, the entire tank has to be pressure washed and any water generated will have to be collected and disposed of properly. This change order includes all work described above and the rental costs for October (2013) to June (2014).

Note: Above tasks include all professional labor, equipment, materials and project management to successfully complete the required effort.

WE AGREE hereby to make the change(s) specified above at this price.
