Please be advised the Vineland Municipal Utilities is advertising to rebuild a transformer vault located on the SE corner of Landis Ave. and 6th St. This spec has been advertised once before but received no bids. The aging vault is in very poor condition and is currently blocked from walking over for safety concerns. The work includes pouring a new lid, support beams, and using highway traffic rated grates. Due to the cost of this rebuild, approximately \$58,000, a specification has been prepared. This item has been budgeted **for underground maintenance.**
