RESOLUTION NO. 2014-<u>456</u>

A RESOLUTION TO AMEND AND SUPPLEMENT RESOLUTION NO. 2012-405, AUTHORIZING DESIGN AND ENGINEERING SERVICES FOR CONSTRUCTION OF THE CLAYVILLE SIMPLE CYCLE POWER PLANT.

WHEREAS, the City Council of the City of Vineland, on October 9, 2012, adopted Resolution No. 2012-405, entitled "A RESOLUTION AUTHORIZING A PROFESSIONAL SERVICES AGREEMENT WITH WALDRON ENGINEERING AND CONSTRUCTION, EXETER, NH, FOR DESIGN AND ENGINEERING SEVICES FOR CONTRUCTION OF THE CLAYVILLE SIMPLE CYCLE POWER PLANT"; and

WHEREAS, there exists a need to amend and supplement the Professional Services contract awarded to Waldron Engineering and Construction, Exeter, NH, Professional Services for Design and Engineering Services for Construction of the Clayville Simple Cycle Power Plant, as authorized by Resolution No. 2012-405; by change order #2 to Contract No. C12-0060, to incorporate the following seven (7) modifications to this contract:

- 1) Additional Waldron professional services related to the re-advertisement of the Clayville Unit 1 construction contract request for public bidding. This re-advertisement was necessitated by the litigation process that occurred after initial award of the construction contract \$6,500
- 2) Additional Waldron sketches to detail and clarify electrical interface points for the Atlantic City Electric (ACE) switchyard work \$1,000
- 3) Additional Waldron professional services related to the Factory Acceptance Test (FAT) for the Rolls-Royce Unit Control Panel (UCP) in Mount Vernon, Ohio \$7,172
- 4) Additional Waldron professional services necessitated by design changes to the Rolls-Royce breaker. The total amount will be back-charged to Rolls-Royce \$14,839
- 5) Additional Waldron professional services related to the design of additional equipment enclosures. These enclosures are being designed for Down Unit #11, as prototyping for eventual deployment at Clayville Unit #1 \$42,000
- 6) Additional Waldron professional services related to participation in the Factory Acceptance Test (FAT) for the Kobelco gas compressor in Corona, California \$6,631
- 7) Additional Waldron professional services related to development of Meets and Bounds support documents for the VMEU/ACE easement agreement for both the Clayville Unit #1 and Clayville Substation areas of the site \$2,866.50; and

WHEREAS, the City Comptroller has certified that funds for the amendment requested herein are available; now, therefore,

BE IT RESOLVED by the Council of the City of Vineland as follows:

1. THAT Resolution No. 2012-405, entitled "A RESOLUTION AUTHORIZING A PROFESSIONAL SERVICES AGREEMENT WITH WALDRON ENGINEERING AND CONSTRUCTION, EXETER, NH, FOR DESIGN AND ENGINEERING SEVICES FOR CONTRUCTION OF THE CLAYVILLE SIMPLE CYCLE POWER PLANT"; be and the same is hereby amended and supplemented to increase maximum amount of the contract by \$81,008.50.

2. THAT the Purchasing Agent be and the	same is hereby authorized to issue an
amendatory supplemental change order to Contract No. 0	C12-0060, in the amount of \$81,008.50.

REPORT

TO: THE MAYOR AND COUNCIL

RE: Amendatory Supplemental Change Order No. 2

Contract No. C12-0060

Design and Engineering Services - Construction of the Clayville Simple Cycle Power Plant

Waldron Engineering and Construction, Exeter, NH

Dear Mayor and Member of Council:

We are requesting an amendatory supplemental change order to Contract No. C12-0060, issued to Waldron Engineering and Construction, Exeter, NH, for Professional Services for Design and Engineering Services for Construction of the Clayville Simple Cycle Power Plant. This contract was authorized by Resolution No. 2012-405, adopted by City Council on October 9, 2012.

The change order requested in the amount of \$81,008.50 is necessary to incorporate the following seven (7) modifications to this contract:

- Additional Waldron professional services related to the re-advertisement of the Clayville Unit 1 construction contract request for public bidding. This re-advertisement was necessitated by the litigation process that occurred after initial award of the construction contract.
- 2) Additional Waldron sketches to detail and clarify electrical interface points for the Atlantic City Electric (ACE) switchyard work.
- 3) Additional Waldron professional services related to the Factory Acceptance Test (FAT) for the Rolls-Royce Unit Control Panel (UCP) in Mount Vernon, Ohio.
- 4) Additional Waldron professional services necessitated by design changes to the Rolls-Royce breaker. The total amount will be back-charged to Rolls-Royce.
- 5) Additional Waldron professional services related to the design of additional equipment enclosures. These enclosures are being designed for Down Unit #11, as prototyping for eventual deployment at Clayville Unit #1.
- 6) Additional Waldron professional services related to participation in the Factory Acceptance Test (FAT) for the Kobelco gas compressor in Corona, California.
- 7) Additional Waldron professional services related to development of Meets and Bounds support documents for the VMEU/ACE easement agreement for both the Clayville Unit #1 and Clayville Substation areas of the site.

This change order, plus change order #1 (\$312,903) will increase the original contract amount from \$1,653,250.00 to \$2,047,161.50.

The amendatory supplemental change order for which authorization is herein requested may be authorized in accordance with N.J.A.C. 5:34-4.1 et seq.

Sincerely,

Olyusi Mynaco
Denise Monaco

RE: PCO #32 Rolls-Royce Breaker Changes (2nd round)

Pete

Thank you for the opportunity to provide the requested potential change order to the Vineland Municipal Electric Utility Clayville Unit 1 Contract. Waldron will redesign the bus duct and layout drawings to allow for the installation of the new Rolls Royce Breaker (3rd type of unit provided)

Hours allocated to bus duct redesign	Cost of man-hours related to this item:	Running sub-total of items thus far:
22 man-hours	\$2,970	\$2,970
Coordination time with Rolls- Royce on these changes	Cost of man-hours related to this item:	Running sub-total of items thus far:
9 man-hours	\$1,215	\$4,185
Modify layout drawings	Cost of man-hours related to this item:	Running sub-total of items thus far:
14 man-hours		
<u> </u>	\$1,815	\$6,000

This work will be produced and issued to VMEU via an Engineering Change Notice, which will be suitable to issue to the contractor for final adjustment in the installation cost (if any).

I trust this memorandum meets your needs. If you have any questions please do not hesitate to call.

Regards,

TEREMY P. SMITH

Re:

Proposed Engineering Scope of Work Vineland Municipal Electric Utility

Howard M. Down Unit #11

Equipment Enclosures for Fuel Oil and Deionized Water Handling Equipment

Date:

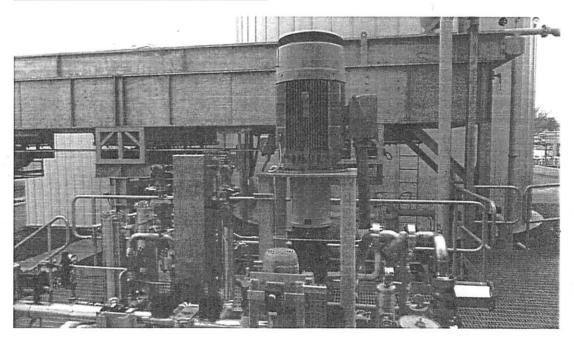

Original Issue -

May 1, 2014

Revision 1 -

May 23, 2014

High Pressure Liquid Fuel Skid Enclosure

High Pressure Liquid Fuel Skid - Looking North

General Requirements:

- 1. Approximate Enclosure Dimensions: 10'-8"W x 14'-8"L x 10'-0" Eave Height, 9'-0" minimum internal vertical clearance
- 2. Pre-engineered enclosure, metal or fiberglass construction, single pitch shed roof, pitch to North, color grey (match existing equipment as closely as possible)
- 3. Electrical
 - a. Electrical wiring and components rated to IE Zone 2 (or NEC Class 1, Div 2)
 - b. One 120V convenience receptacle
 - c. Interior light fixture(s)
 - d. Spark-proof exhaust fan with thermostat and inlet louver/damper
 - e. Heat detector and fire alarm pull station

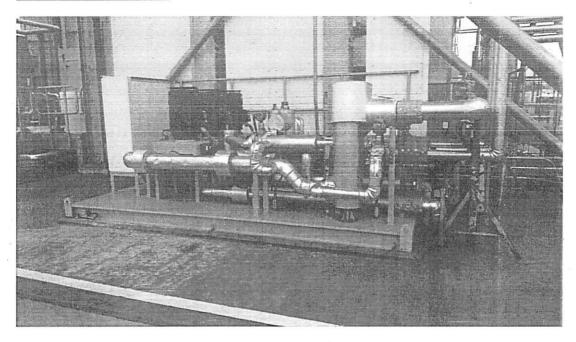

- 4. Floor and enclosure support curb designed to provide spill protection from accidental release of liquid fuel.
- 5. Removable wall and roof panels for pump and filter, etc. maintenance
- 6. Two exterior doors (East and West elevations)
- 7. Access to existing valves below grating on east side of skid needs to be maintained
- 8. Additional structural steel under grating likely required to support new enclosure Proposed Engineering Services and Deliverables:
 - 1. Code review to ensure that the applicable design requirements are incorporated into Waldron-generated drawings and specifications.
 - a. The recommended project approach with respect to code compliance and permits is to treat enclosures as non-occupied equipment space in order to streamline the review process by NJ DCA and/or local Code Officials.
 - b. DCA involvement is currently limited to production of the construction documents listed below. It assumed that VMEU's Construction Contractor for this project will be responsible for packaging and submitting the drawings and specs listed below along with all applicable shop drawings from the enclosure supplier and any other required permitting materials to the applicable Code Official(s) or Agencies. It is further assumed that the Construction Contractor has full responsibility for securing all permits and approvals from all Regulatory Agencies including DCA.
 - 2. Enclosure specification data sheet
 - 3. Enclosure drawing(s) to include plan, elevations and details
 - 4. Structural Steel drawing showing modifications to existing platform steel
 - 5. Electrical drawing(s) showing power, lighting and fire alarm devices

Proposed Engineering Fees:

Waldron's estimate to perform the services listed above is \$14,000 (Fourteen Thousand Dollars, US). All work will be invoiced on a Time and Material basis at rates shown in the attached Fee Schedule. The estimated fees will not be exceeded without prior approval from VMEU.

- Additional time to coordinate with NJ DCA and/or local code officials beyond that described above, if required, will be invoiced on a time and material basis in accordance with the attached Fee Schedule.
- Additional time for construction administration/construction support services during construction will be charged on a time and material basis in accordance with the attached Fee Schedule

ISI Water Skid Enclosure

ISI Water Skid - Looking East

General Requirements:

- 1. Approximate Enclosure Dimensions: 12'-0"W x 21'-4"L x 10'-0" Eave Height, 9'-0" minimum internal vertical clearance
- 2. Pre-engineered enclosure, metal or fiberglass construction, single pitch shed roof, pitch to West, color grey (match existing equipment as closely as possible)
- 3. Electrical
 - a. One 120V convenience receptacle
 - b. Interior light fixture(s)
 - c. Exhaust fan with thermostat and inlet louver/damper
 - d. Heat detector and fire alarm pull station
- 4. Building anchored to existing concrete foundation
- 5. Removable wall panels for pump and filter, etc. maintenance
- 6. Two exterior doors (North and South elevations)
- 7. Penetrations/openings in East wall as required for existing conduits and pipes

Proposed Engineering Services and Deliverables:

- Code review to ensure that the applicable design requirements are incorporated into Waldron-generated drawings and specifications.
 - a. The recommended project approach with respect to code compliance and permits is to treat enclosures as non-occupied equipment space in order to streamline the review process by NJ DCA and/or local Code Officials.
 - b. DCA involvement is currently limited to production of the construction documents listed below. It assumed that VMEU's Construction Contractor for this project will be responsible for packaging and submitting the drawings and specs listed below along with all applicable shop drawings from the enclosure supplier and any other required permitting materials to the applicable Code Official(s) or Agencies. It is further assumed that the Construction Contractor

has full responsibility for securing all permits and approvals from all Regulatory Agencies including DCA.

- 2. Enclosure specification data sheet
- 3. Enclosure drawing(s) to include plan, elevations and details
- 4. Foundation anchor bolt drawing
- 5. Electrical drawing(s) showing power, lighting and fire alarm devices

Proposed Engineering Fees:

Waldron's estimate to perform the services listed above is \$8,000 (Eight Thousand Dollars, US). All work will be invoiced on a Time and Material basis at rates shown in the attached Fee Schedule. The estimated fees will not be exceeded without prior approval from VMEU. This estimate assumes that this work is accomplished in parallel with or immediately following the work on the liquid fuel enclosure. This will allow utilizing the information developed for the liquid fuel enclosure and adapting it for the ISI enclosure.

- 1. Additional time to coordinate with NJ DCA and/or local code officials beyond that described above, if required, will be invoiced on a time and material basis in accordance with the attached Fee Schedule.
- 2. Additional time for construction administration/construction support services during construction will be charged on a time and material basis in accordance with the attached Fee Schedule.

Equipment Pad and Lean-to Structure for Fuel Forwarding Equipment

General Requirements:

- Design a new concrete equipment pad to support relocated fuel oil forwarding pump, new fuel oil heater and new fuel oil duplex filter. Equipment pad to include a 4" high perimeter curb for housekeeping.
 - a. See attached P&ID for further scope definition
 - b. Pad dimensions to be determined during design
- 2. Design a new lean-to structure to cover equipment installed on new pad
- 3. Piping
 - a. Re-route fuel oil pump suction and discharge piping as required to accommodate new equipment layout.
 - b. All new piping to be black steel
- 4. Electrical
 - a. One 120V convenience receptacle
 - b. Exterior light fixture(s) for installation in lean-to
 - c. Reuse/re-route/extend existing power feeders as required

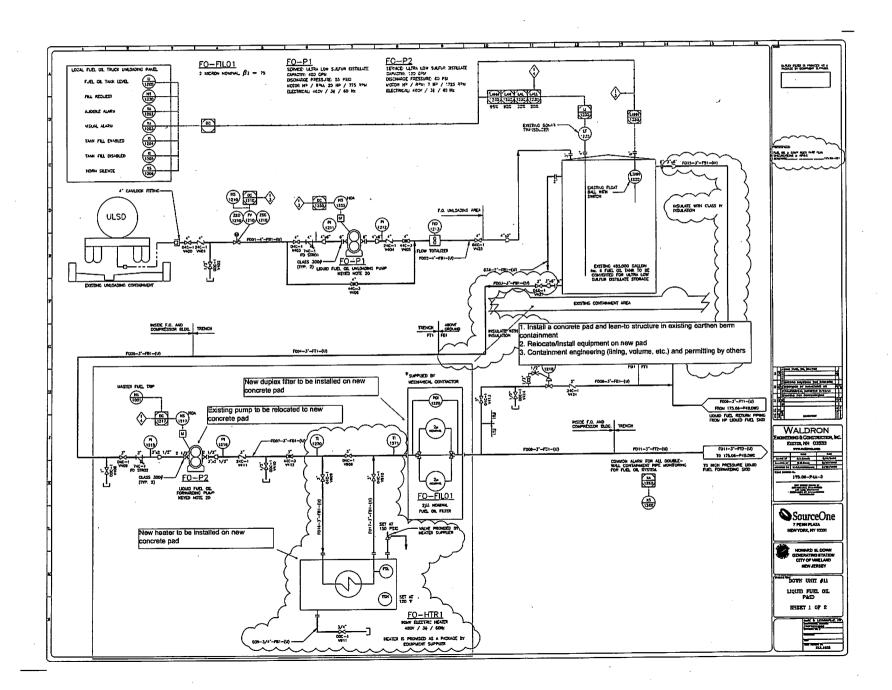

Proposed Engineering Services and Deliverables:

- 1. Code review to ensure that all applicable design requirements are incorporated into Waldron-generated drawings and specifications.
 - a. DCA involvement is currently limited to production of the construction documents listed below. It assumed that VMEU's Construction Contractor for this project will be responsible for packaging and submitting the drawings and specs listed below along with any other required permitting materials to the applicable Code Official(s) or Agencies. It is further assumed that the Construction Contractor has full responsibility for securing all permits and approvals from all Regulatory Agencies including DCA.
- 2. Concrete pad drawing(s) to include reinforced concrete specifications, as required
- 3. Lean-to enclosure drawing(s) to include structural steel specifications, as required
- 4. Updated P&ID and piping layout drawing
- 5. Electrical drawing(s) for power distribution and lighting

Proposed Engineering Fees:

Waldron's estimate to perform the services listed above is \$19,700 (Nineteen Thousand Seven Hundred Dollars, US). All work will be invoiced on a Time and Material basis at rates shown in the attached Fee Schedule. The estimated fees will not be exceeded without prior approval from VMEU.

- Additional time to coordinate with NJ DCA and/or local code officials beyond that described above, if required, will be invoiced on a time and material basis in accordance with the attached Fee Schedule.
- 2. Additional time for construction administration/construction support services during construction will be charged on a time and material basis in accordance with the attached Fee Schedule

RE: PCO #24 Kobeleco

Pete

Thank you for the opportunity to provide the requested potential change order to the Vineland Municipal Electric Utility Clayville Unit 1 Contract. Waldron will assist in VMEU's witness of the Kobeleco Gas Compressor Unit to be held in Culver City, California

Travel time to/From California	Cost of man-hours related to this item:	Running sub-total of items thus far:
16 man-hours	\$2,640	\$2,640
Expenses related to trip Hotel, flights, meals, parking, rental car	Cost of man-hours related to this item:	Running sub-total of items thus far:
·	\$1,864	\$4,504
Performance of the FAT and preparation of the FAT report	Cost of man-hours related to this item:	Running sub-total of items thus far:
14 man-hours	\$2,296	\$6,800

This work will be performed either by myself (Jeremy Smith, PE) or the engineer who has performed the other FAT work for VMEU (Michael Adams, PE) as determined by the final schedule and as we discussed during our teleconference.

Waldron will maintain the pricing regardless of which team member attends the FAT (As with the other FAT PCO's, Waldron will reduce the higher priced team member rates such that the adjustment ensures that VMEU's final cost is not impacted by our personnel's availability)

I trust this memorandum meets your needs. If you have any questions please do not hesitate to call.

Regards,

JEREMY P. SMITH

WALDRON FIRST CAREE CONTROL AND ADDRESS OF THE CONTROL OF THE CONT

September 15, 2014

Gustav Foster Vineland Municipal Electric Utility Assistant Superintendent of Distribution North-West Avenue Vineland NJ

RE: Scope of work for Meets & Bounds

Attach:

Exhibit A-proposed

Mr. Foster,

Waldron Engineering & Construction, Inc. (Waldron) is pleased to submit this scope of work for Engineering Services to develop the meets and bounds attachments for the Clayville Unit 1 Atlantic City electric areas of the project site.

Scope of work

Waldron Engineering will execute the design of the meets and bounds exhibit and traverse document for the project attachments sent previously and shown in in this project plan.

Deliverables

- 1. The Exhibit A for the meets and bounds will be a 30 scale plan layout drawing based on Exhibit A for the previous project modified for the new ACE access road and the new Clayville Unit 1 ACE switchyard
- 2. The traverse will be based on the traverse as sent modified to include the additional areas.

Terms and conditions

1. The proposal is subject to the VMEU/Waldron services agreement (Dated September 28, 2012)

Clarifications

- 1. This does not include any on-site work
- 2. This quote assumes the work product is to be delivered as sent

Pricing and Terms of Payment

The project engineering services are proposed on a Time & Material basis with a not-to-exceed limit (NTE) and will be set up as a Potential Change Order (PCO) per the governing contract (Scope of work dated September 28, 2012)

WALDRON

Waldron shall alert VMEU when 80% of the NTE amount has been expended. Invoices will be issued as part of the existing contract (Milestone No. 61)

Payment terms are per the original contact (includes a 10% retainage)

Waldron thanks you for allowing us to submit this scope of work. If you find this to be complete and wish to provide us with the PCO authorization, we are prepared to begin work immediately.

If you have any questions please do not hesitate to contact me or Jeremy Smith at 603-772-7153 or by E-mail at jsmith@waldron.com

Very truly yours

Waldron Engineering & Construction, Inc.
