Contract for Solid and Liquid Waste Disposal Services

VMEU's existing contract for solid and liquid waste disposal expires on June 30, 2016.

Clean Venture's proposal is for one year beginning July 1, 2016 with an option for a second year. In section XI. C. "Termination of Automatic Renewal" states, "Either party shall have the right to terminate this contract...within ninety (90) days prior to the expiration of the Initial Contract Period."

The specification requests unit pricing. Total contract cost is determined by

1. The estimated quantities of wastes listed in the specification and
2. The unit prices in Clean Venture's proposal.

Total estimated contract cost based on quantities and unit pricing is \$179,345. This estimate includes \$66,120 for the removal of old plant fly ash that will not be removed in 2016. The remaining \$113,225 exceeds the engineer's estimate because the contract's time frame is two (2) years. Annual cost should be approximately half this quantity.

The disposal rates in the proposal are reasonably close to rates currently in effect. In 2015 the cost was \$62,030.31.

Based on proposed unit prices, compliance with the specification, and past performance of this vendor, an award to Clean Venture is recommended.
