

RESOLUTION NO. 2016 -217

A RESOLUTION AUTHORIZING THE PURCHASE OF ONE (1) TENNANT M-S30 MODEL S30 RIDER SWEEPER FROM STAPLES BUSINESS ADVANTAGE, 1414 RADCLIFFE ST., SUITE 110, BRISTOL, PA 19007, IN THE AMOUNT OF \$41,349.00, PURSUANT TO A NATIONAL COOPERATIVE CONTRACT AGREEMENT WITH NATIONAL JOINT POWERS ALLIANCE (NJPA) CONTRACT #110415-SCC.

WHEREAS, the City of Vineland Public Works Department is in need of a Sidewalk/Parking Lot Sweeper, and;

WHEREAS, the City of Vineland is a member of a National Cooperative Purchasing Agreement known as the National Joint Powers Alliance (NJPA) under member number 19409- and, NJPA is a national cooperative contract organization; and,

WHEREAS, NJPA, National Cooperative Purchasing Program has acted as lead agency and awarded Contract # 110415-SCC, Janitorial Supplies and Related Custodial Products. Specific information regarding the contract may be found on the NJPA website at: www.njpacoop.org and,

WHEREAS, N.J.S.A. 52:34-6.2 permits the City of Vineland to purchase the Sidewalk/Parking Lot Sweeper using the offered National Cooperative Contract without public bidding, subject to the submittal and acceptance of certain documentation by Staples Business Advantage;

WHEREAS, the City of Vineland intends under NJPA, under the Category: Janitorial Supplies and Related Custodial Products, Contract # 110415-SCC, to purchase from Staples Business Advantage, 1414 Radcliffe St., Suite 110, Bristol, PA 19007, One (1) Tennant M-S30 Model S30 Rider Sweeper, in an amount not to exceed \$41,349.00, as listed in the Quotation, dated April 12, 2016, made available through the NJPA.

WHEREAS the Director of Public Works and the Qualified Purchasing Agent, with the concurrence of the Business Administrator, recommend the use of the National Cooperative Pricing through NJPA for this procurement;

WHEREAS, notice of the within purchase has been published on June 17, 2016, with a 10-day comment period as required by Local Finance Notice 2012-10 and;

WHEREAS, the City of Vineland Purchasing Agent has determined that the use of the offered National Cooperative Contract will result in cost savings after all factors, including charges for service, material and delivery have been considered and has verified that such equipment is not available through State Contract awarded by the Division of Purchase and Property in the New Jersey Department of the Treasury pursuant to N.J.S.A. 40A:11-12; and

WHEREAS, the availability of funds for said purchase to be awarded herein have been certified by the City Comptroller; and

CITY OF VINELAND, NJ

WHEREAS, the City of Vineland has certified that this meets the statute and regulations governing the award of said contracts;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF VINELAND, that the Purchasing Agent is authorized to prepare a purchase order to procure the One (1) Sidewalk/Parking Lot Sweeper, from Staples Business Advantage for a price not to exceed \$41,349.00

BE IT FURTHER RESOLVED that the purchase order shall contain a requirement that “the vendor shall maintain all documentation related to products, transactions or services under this contract for a period of five years from the date of final payment. Such records shall be made available to the New Jersey Office of the State Comptroller upon request”.

Adopted:

President of Council

ATTEST:

City Clerk

AWARD CONTRACT RESOLUTION REQUEST

From: Yvonne Lewis, Purchasing Agent

To: Business Administration

Date of Request: June 15, 2016

City Council Meeting Date: June 28, 2016

Title: Sidewalk/Parking Lot Sweeper

Competitive Process: NJPA (National Joint Purchasing Alliance) – Contract #110415-SCC

Bid Opening Date: November 5, 2015

Resolution Request:

This is a request to award the purchase of a Tennant M-S30 Model S30 Rider Sweeper for the Department of Public Works (VDID) in the amount of \$41,349.00 through the National Cooperative Contract – National Joint Powers Alliance, (NJPA). Purchasing this equipment through the “national cooperative contract” is allowed under PL 2011, c.139.

The vendor is: Staples Business Advantage
1414 Radcliffe St.
Suite 110
Bristol, PA 19007

By using the national contract, the city will save time and costs associated with bid specification preparation, receiving bids and awarding a contract.

(see Memo dated June 6, 2016 – with other quotes)

If you have any questions or need additional information, please contact me.

MEMORANDUM
JUNE 6, 2016

TO: Yvonne Lewis - Purchasing Agent

FROM: Mark Guglielmi, C.P.W.M. - Superintendent of Public Works

SUBJECT: SIDEWALK/PARKING LOT SWEEPER

After demonstrations from three (3) different vendors at three (3) different times on the sidewalks on Landis Avenue in center city, the following conclusions were made toward a purchase of a sidewalk sweeper. The three (3) vendors which were included in the demonstrations, Russell Swanson and I concluded that the Tennant sweeper, by far, had the best performance of the three (3) sweepers.

The Tennant sweeper had the most effective and best area coverage of the three (3) sweepers. The dirt in between the pavers and sidewalk joints was removed deeper and more thorough than the other two (2) units could do. The Tennant sweeper could handle rougher terrain and different height adjustments better than the other two (2) units. The vacuum/broom combination picked up dirt and debris much better than the other two (2) units. The Power Boss unit was priced lower but did not offer a separate vacuum wand and had the worst performance. This was due to the lower horsepower and less broom/vacuum action. Power Boss could not provide a sweeper with comparable features, which the other two (2) units had.

The Tennant sweeper had the best price compared to the Bortek unit. Tennant offered an even better price for the demo unit with all the same guarantees as a new unit. There is only 23 hours on the demo unit. The price for the Tennant sweeper, including delivery, is \$41,349.00; the price for the Bortek unit, including delivery, is \$47,517.00.

I feel confident in recommending that the City purchase the Tennant sweeper for the use on center city sidewalks and parking lots. If you have any questions please contact me at extension 4083.

Mark Guglielmi, C.P.W.M.
Superintendent of P.W.

1-800-626-7835

bortekindustries.com

True industrial designed Kubota® engine with enclosed gear driven valve train for reliable cost-effective performance

One-Touch™ lever activates and controls complete sweeping and dust control systems

Large ergonomic operator compartment for comfort

DustClear™ 5-Stage Dust Control System minimizes fugitive dust

Clear-View™ design provides the operator a direct view of the side broom without leaning to the side

Ultra-Web® dust filter captures submicron particles and is cleaned automatically with the Liberator™ multi vibration frequency shaker system

Sweep system only activates when machine is in motion, for increased safety and longer broom life

Non-corrosive structural roto-molded hopper with integrated 5 mph bumper extends machine life and avoids ugly rust

Wide 50 inch main broom plus the dual side brooms create a superior 77 inch dust controlled sweep path

DustGuard™ attacks and controls dust at the side brooms for the highest dust controlled productivity on the market

Comfort ride 21 inch pneumatic tires offer the operator a smoother ride with less jarring on rough surfaces

DustGuard™ suppresses side broom generated dust allowing continuous use, and increasing, dust controlled productivity by over 70%.

For optimal safety, the hopper safety arm can be engaged without leaving the operator seat. In addition, the sweeping systems automatically stops when the machine motion stops.

The optional all weather cab keeps the operator comfortable and productive. Clear-View™ window in the cab provides a safe view of the right side broom.

MaxAccess™ allows faster repairs and less downtime so the sweeper spends less time in the shop and more time sweeping.

Ultra-Web® dust filter is >98% efficient on 0.3 - 1 micron dust. All dust is locked in the hopper behind only 1 critical seal incorporated in the dust filter. Captured dust is shaken directly back into the hopper.

SW8000™

Rider Sweeper

Superior Dust Control and Productivity...

The Advance SW8000™ is unsurpassed in indoor and outdoor power sweeping. A 50 inch main broom – the widest in this sweeper class – combined with full time dust controlled dual side brooms*, creates an incredible 77 inch sweep path.

On conventional rider sweepers, dust is controlled at the main broom only. The side brooms, the biggest source of dust, must be raised in open areas when fugitive dust is a concern. The SW8000 is not a conventional machine. The innovative DustClear™ Five Stage Dust Control System allows for full time use of the dual side brooms by controlling dust along the entire sweep path – including the side brooms. Productivity is then increased by over 70% compared with conventional sweepers that control dust only at the main broom.

With superior dust control, innovative safety features, low maintenance costs, and ease of operation, the Advance SW8000 takes power sweeping to the next level.

* Optional features

MaxAccess™ – Minimizes downtime and maximizes efficiency, reliability and longevity through quick and easy access to all engine and hydraulic components.

Easy To Operate – One-Touch™ controls and a single foot pedal controls direction plus activates the brooms and dust control system and offers the operator the easiest machine to use in the industry.

Clear-View™ – Offset hopper allows the operator to view the side broom and the area in front of the sweeper without having to lean outside the frame of the machine making it safer and more comfortable to use.

Operator Safety – Hopper safety arm is controlled from the operator's compartment. Operator is safe from moving parts through the interlocking engine cover. Impact-adsorbing roto-molded body structure and 5 mph bumper provides the ultimate in operator safety.

Ideal applications include:

- Manufacturing Plants
- Warehouses
- Cement, Brick and Block Facilities
- Contract Cleaners
- Rental Centers
- Parking Garages
- Surface Lots
- Municipal Parks
- Zoos / Amusement Parks

ATLAS | FEATURES & BENEFITS

FEATURES	BENEFITS
Multiple Power Options	Gas and LP Kubota 55 HP 1.5 Liter Tier III 4 cylinder engines or Diesel Kubota 37.5 HP Liquid Cooled 4 Cyl. Superior quality, environmentally compliant and a versatile choice of power source to fit any working environment.
Quiet Operation	Only 83 dba noise level in full operation. A quiet machine for the operator providing less operator fatigue, more productivity with better results.
Premium Hydraulics System	The straight hydraulics system eliminates the need for micro processors or electro hydraulic valves. Straight hydraulics to turn on the main broom and side broom as well as cable linkage to raise and lower them. This provides a more cost effective, reliable design over the life of the machine. By turning the standard hydraulic By-pass tow-valve, this allows for the machine to be towed without pressure on the motor seals eliminating possible damage.
Quick Change Wear Items	No tools required to change or adjust the main broom, side broom or the dust filter. Easy and fast for better performance and more time spent sweeping.
Retractable Side Sweeping Broom	The large 26" side broom swings away from obstructions on impact, prolongs life of side broom and the hydraulic motor, giving the operator more confidence to do a better cleaning job.
Main Sweeping Broom Wear Indicator	The 48" main broom can be adjusted to the maximum sweeping position from the operators compartment. This wear adjustment also provides information as to how much sweeping life the broom has remaining. The sweeping system also allows for a full float sweeping position to successfully clean uneven surfaces. This easy to use system provides instant feedback for the operator and powerful sweeping results.
Wall Saver Corner Roller	A heavy duty roller located in the right rear corner of the machine. This provides protection for the machine and the facility.
Ergonomic Operation	<p>A roomy, open cockpit with extra comfort and convenience features for less operator fatigue and longer run times.</p> <ul style="list-style-type: none"> • Adjustable high back seat • Power steering and tilt steering wheel • Comfortable pedal / controls placement • Excellent maneuverability - rear steering allows for maximum maneuverability in tight areas. U-Turn in less than a 10 ft aisle.

ABOUT US

Since 1985 PowerBoss has been manufacturing a full line of rugged industrial cleaning equipment. Innovative design features and cost effective reliable operation have proven to be why our customers continue to choose PowerBoss sweepers and scrubbers. Worldwide factory trained service and parts distributors provide timely response to keep your PowerBoss units performing in the most demanding environments. Contact us today and speak with an experienced PowerBoss representative about surveying your facility for a free product demonstration.

PowerBoss is a division of three companies manufacturing a full line of maintenance products, including Minuteman critical air vacuums, industrial and commercial vacuums, sweepers and scrubbers, floor and carpet machines and Multi-Clean Chemicals for industrial, commercial and institutional facilities.

ATLAS

INDUSTRIAL SWEEPER

This new sweeper is the result of market-driven needs and state of the art design and manufacturing expertise. They incorporate features and benefits that make owning and operating a power sweeper as productive and uncomplicated as it could ever be.

1

Power Access

Unmatched accessibility for routine engine maintenance, saving time and providing longer engine life. It's like having an engine on a workbench. **PowerBoss** uses the latest most fuel efficient engines on the market.

2

60" Multi-Level High Dump

Complete with the **Safety Vision Dumping System**, this feature allows the operator to safely, easily dispose of the debris at any height up to a standard 60" waste receptacle. The hopper also features a large opening for material which should not be swept, providing the operator a convenient place to deposit materials that would otherwise be left behind.

3

Safety Vision Dump Window

Provides a safe, clear view of the hopper position when emptying debris into the dumpster. This feature is designed to provide safety when dumping and to minimize accidental damage to the machine.

4

Power Control Dust Collection System

No tool, quick change filter for easy routine maintenance. Four stage dust filtration system.

Stage 1: Vacuumized main broom chamber.

Stage 2: Perma Pre-Filter helps to eliminate dust before reaching the panel filter.

Stage 3: 95 ft2 Synthetic Panel Filter.

Stage 4: Aggressive, filter vibration system to release the dust from the filter.

5

Heavy Duty Design

The ATLAS features a robust one-piece, unitized 1/4" thick steel frame. This rugged style construction provides a longer more durable machine life.

6

Exceptional Ground Clearance - The PowerClimb

The **PowerClimb** feature with 23" diameter tires easily maneuvers over rough terrain, including speed bumps and standard 4" curbs. This extra ground clearance provides the opportunity to sweep sidewalks and medians without damage to the machine.
