## Open Ended Contract for Stack Emissions Testing

The attached specification has prepared to perform stack emission testing services on the following generating units of the Vineland Municipal Electric Utility:

1. Clayville Unit 1 combustion turbine located at 4087 S. Lincoln Ave.
2. Unit 11 combustion turbine located at the Howard M. Down Generating Station, West Ave. and Plum Street
3. West Unit 1 along with an associated diesel starter engine located at west substation, Lubin Lane and New Peach Street

Testing of the facilities listed above will be of various types designed to demonstrate compliance with multiple requirements in applicable air pollution permits or obtain operating information for other purposes.
