October 5, 2017

Joe,

The existing contract with Pace Environmental for stack emissions and RATA testing services expires on December 31, 2017. The enclosed specification and request for proposals leading to the award of a new contract were prepared by Lisa Fleming and the writer. They have been reviewed and approved by John Miller and Gus Foster. We would like to advertise for proposals on October 24, 2017 and award a contract on December 26, 2017.

J. L. Colla

Open Ended Contract for Stack Emissions Testing

The attached specification has prepared to perform stack emission testing services on the following generating units of the Vineland Municipal Electric Utility:

1. Clayville Unit 1 combustion turbine located at 4087 S. Lincoln Ave.

2. Unit 11 combustion turbine located at the Howard M. Down Generating Station, West Ave. and Plum Street

3. West Unit 1 along with an associated diesel starter engine located at west substation, Lubin Lane and New Peach Street

Testing of the facilities listed above will be of various types designed to demonstrate

compliance with multiple requirements in applicable air pollution permits or obtain operating

information for other purposes.

B. Z. Collier
