**Subject:** NJDOT Rt 55/47 Bridge Replacement - Concept Development - Resolution of Support

City of Vineland Officials,

The Concept Development phase of the Rt. 55 bridges over Rt 47 project is essentially complete, but the next phase of project development is in pending status since concurrence from the City of Vineland has not been received to date. Project concurrence / resolution of support is required for NJDOT to obtain funding approval for the design phase. Based on the previous project meetings with the City, there were no objections to the full bridge replacement Preliminary Preferred Alternative (PPA) and it was indicated that a resolution of support would be issued.

We kindly request that the City respond to this email by **August 26, 2019** providing PAA concurrence. A resolution of support can follow separately.

Attached is the minutes from our last meeting. If you need any additional information, please let me know.

Thanks.
