January 14, 2021

Mr. Miguel A. Merchado, QPA  
City of Vineland  
Purchasing Agent  
640 East Wood Street  
Vineland, NJ 08360

Dear Miguel:

It was nice to speak with you about your display for July 4, 2021. We have a program for you with a cost of \$35,000.00 to be fired with our computer firing system included in that price. As for a sound company, if you are interested in our services we will make arrangements with the sound company. The sound company needs to see your firing area and meet the City to go over the particulars of the day of event procedures and layout before I can get a price for that. The additional cost for the show to be synchronized to music is \$3500 (10 percent). Included is a list of references. We shoot many shows in New Jersey and are thus very familiar with the JIF paperwork required. We have also included our Business Registration Certificate and the our EEO Registration.

As per the requirements for your RFP, we have a 100 percent accident-free history in transportation and discharging of fireworks. If you would like to verify that, our insurance broker is Britton Gallagher, contact is Tami Bridgeman (216) 658-7894. As for completing the shows in the past 5 years I am self-certifying that we have completed every contract that we have been signed to provide. Our company shoots over 100 shows per year, and the owners have been in business shooting shows since 1986.

## CITY OF VINELAND CUSTOM DESIGNED DISPLAY

### GRANDE FINALE:

Your ending will be most spectacular. This year we have special shells that will be chained just for us. If there is one thing that I have found over the years, it is that most, if not all spectators remember the end of your show best. So this year, we have developed special segments for your finale. Some of these segments fit into the "American Tradition theme" of red, white and blue. We have special effect segments of crackling shells, strobing shells, palm tree shells and our new brocade (waterfall) shells. We then go into the super-fancy tiger tail shells which frankly are just tremendous. Your display comes to a conclusion with the loudest salutes that we could find. Based on your show size and site that we fire this from, we will then "layer" your display with the larger size shells of similar effects so that you truly have the traditional Schaefer Pyrotechnics Inc. "wall of fire" effect that will make this a
